

VIROBOX UVC Virucidal Disinfection

PRODUCT PRESENTATION

- A new generation of virucidal sterilisers with two different units available, VBX15 and VBX30.
- An automatic, innovative and patented solution guaranteed for 2 years.
- Sanitises and sterilises frames, PPE, Tweezers, scissors, documents amongst many other items.
- Customisable support rack and/or laser cut branded logos at modest minimum order volumes.

PRODUCT FUNCTIONALITY

- Virucidal Sterilisation Cycle: 30 minute factory setting.
 - Internal reflective surface for maximum distribution of UVC light.
 - Internal shelf positioned at an optimum distance from lamps to ensure optimal results.
 - Indicator light that shines red during operation and green when the sterilisation cycle is complete.
 - Total User Safety ensured by a safety switch that cuts all power when the door opens.
 - Auto-start mechanism activates sterilisation cycle once the door is closed.
 - Customisable shelf on request, tailored to the items being sterilised.
- *End user to check the long-term service life of the material being sterilised.

PRODUCT PERFORMANCE

- Test conducted in COFRAC certified virology laboratory.
- Standard used for virucidal efficacy test is NF T 72-281.

Results

| Virus Tested | Virucidal Reduction | Virucidal Efficacy |
|----------------------|---------------------|--------------------|
| Adenovirus Type 5 | 5.24 log reduction | 99.99999% |
| Murine norovirus S99 | 4.27 log reduction | 99.999% |
