

KS Automated Sterilisation Cupboard UVC Virucidal Disinfection

PRODUCT PRESENTATION

- Automated germicidal automated disinfection solution.
- No programming required and contains an auto start mechanism that activates on closing the door.
- Highly resistant to corrosion and rust, manufactured in stainless steel 304 and fitted with an energy saving lamp.
- Customisable support rack and/or laser cut branded logos at modest minimum order volumes.
- Pre-programmed sterilisation cycle of 2 hours.
- Green Indicator light indicates that the knife steriliser is switched on and a red light to show that a steriliser cycle is in progress.
- An inclined knife rack to increase capacity.

- **Test Report Laboratory MICROSEPT ref: AS_BRC_060219**

Organism	Bactericidal reduction	Bactericidal efficiency
Escherichia coli	6,1 Log reduction	99,999999%
Pseudomonas aeruginosa	6,9 Log reduction	99,999999%
Staphylococcus aureus	6,5 Log reduction	99,999999%
Salmonella enterica	7,8 Log reduction	99,999999%

CHARACTERISTICS

MODEL	SPECIFICATION	MATERIAL	OUTPUT	DIMENSIONS (L X H X W)	WEIGHT
KS12	Knife cabinet with magnetic bar (capacity 12 knives)	Stainless Steel	1x15W (UVC)	34.6x60.7x14.5cm	5.5kg
KS20	Knife cabinet with support rack (capacity 12 knives)	Stainless Steel	1x15W (UVC)	49.6x60.7x14.5cm	7.5kg
KS40	Knife cabinet with magnetic bar (capacity 20 knives)	Stainless Steel	2x15W (UVC)	49.6x60.7x14.5cm	12kg
